joiners and dryliners

Established over 21 years ago JP Blair is a family business that has developed from our joinery roots to cover any kind of dry lining and suspended ceiling installation.

Our fully trained and health and safety aware workforce of around 20 are directly employed, helping us achieve exacting standards of finish. We pride ourselves on doing all projects on time, on budget with high standards of workmanship. We aim for zero defects as we believe in doing the job right first time.

All our operatives have CSCS cards and our site managers have health and safety site safe pass cards, all workers are PASMA trained for access towers and hold IPAF certificates for powered lifts.

We have a procedure in place to attempt to recycle all waste plasterboard.

ceilings

We are experienced in all types of suspended ceiling from manufacturers such as Burgess, SAS Products, Armstrong Ceilings, and British Gypsum. Our highly trained workforce can handle any size of project, from large open plan offices to small shop units, from plain M/F ceilings to specialist coffered and stepped ceilings. We are always happy to assist designers in respect of buildability issues to help make their vision a practical reality.

We recently completed the £200k ceilings and dry lining package at The Grand Central Hotel in Glasgow. This involved stepped Casoline curved ceilings with lighting recesses in the ballroom which was up to 8.70m high, and an Andy Thornton chrome ceiling in the champagne bar, Burgess hygienic tiles in the kitchens, Armstrong ceilings in corridors, as well as the lowered British Gypsum M/F ceilings throughout the bedrooms and bathrooms.

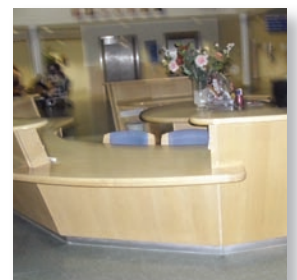

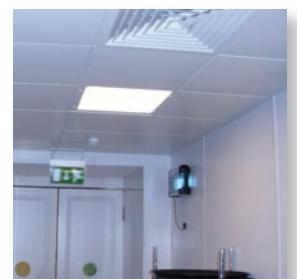

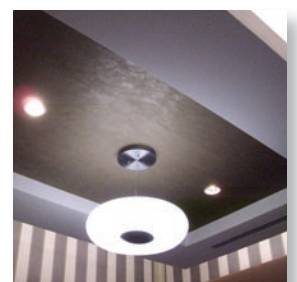

drylining

We undertake all types of metal stud partitions and wall lining to exacting standards. We can also supply ames taping and plastering services.

joinery

From first fix joinery through to prestige shop and bar fitting we can handle all carpentry and joinery projects. With a commitment to excellence we enable clients, architects, interior designers and main contractors to realise their vision.

We have many years of experience in creating bespoke doors, windows, kitchens, desks and partitions, in fact pretty much anything in wood.

Our recent
clients include:

- PFX Contracts
- Barr Construction
- Bovis Lend Lease
- Veitchi Interiors
- Withy Contracts
- Ardmac Construction
- Clark Contracts
- Wates Interiors
- David Bridgeford
